collection 2017

Catalogue of well designed interiors

English, Czech, Hungarian, Romanian
Russian, Serbian, Slovak

Explore the advantages of our furniture

Freedom of choice

styles

Our collections include furniture in different styles and colours that adapt to you and your interior. Modern, glamour, classic style or Scandinavian impressions - everyone will find something for themselves here.

Endless possibilities

modularity

Thanks to the modular furniture you gain even more opportunities to arrange your dream apartment. Our collections consist of many different components that can freely connected and combined in any configuration.

Comfort

soft closing system

Hinges and guides with soft closing system are equipped with special brakes. The mechanism is activated in the final stage of closing and gently closes the locker doors and drawer fronts for even more convenience in using our furniture.

We create our products with the utmost attention to detail. What matters is the style, but we also pay attention to every detail to give you everything you need.

Natural materials

wood and veneer

Natural wood is a material of the highest quality. Its natural look and texture and beautiful way in which it is aging makes it look extraordinarily even after many years of use. Veneer is its equivalent - thin sheets of wood with similar properties.

Unique climate

LED lighting

Energy-efficient LED lighting is a product which with low energy consumption will completely change the look of the interior. LED lights used in glass-door cabinets or hanging shelves bring a unique style to the room and emphasize the character of the furniture.

Safety

tempered glass

Tempered glass is a perfect equivalent of ordinary glass. In the process of hardening this material becomes much more resistant to scratches, braking and other types of mechanical damage, making it more durable and safe.

living room and dining room

Your home is a place where you can live exactly as you wish. That is why the interiors where you can finally switch off, get rid of stress and simply relax are so important. It is not their size that will make your loved ones sit with you for hours. It is the atmosphere, comfortable sofas and comfortable space for spending time together. We have even more ideas and solutions for you for the arrangement of the living room and dining room to make every day spent together even more special.

**Furniture that you can

4. Express yourself and compose your own furniture sets!

**Design your
own furniture!**

Possi

Possi is a recipe for a perfect fit interior. Why? Because You decide about the style of your furniture.

You create the sets and freely play with colours. It's so simple!

Possi

With Possi you can arrange the interior of the living room using the maximum of the available space. Individual modules can be easily arranged on the floor and light-form cabinets and shelves can be mounted on the wall. Maximum comfort in a small space.

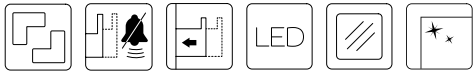

You can choose the colour of the Possi furniture from the entire colour palette! You may choose one of three colours of the body and up to 39 colours of fronts. Play with the possibilities and create your own compositions.

Possi

Possi is a modern form and style. Look at the perfectly straight line of fronts, which curves at the corners. It makes the whole composition look light and the grey adds character to the interior. And what about you? Which Possi colour would you choose?

A stimulating trio

Light blue and a complementary conspicuous chest of drawers in wood tones and greys is a set which requires proper setting. Hence the idea for an industrial lamp, several porcelain figurines and a photo gallery on the wall. The result is unique - as always when the beautiful furnishings create the character of the interior.

is a perfect combination of functionality and simple forms.
Furniture is available in two colour options. Choose your style.

Porto

Where is the boundary between classical and modern style? It does not exist, probably. This modular system comes in two different versions. Depending on the colours and additions that you choose, it can be more traditional or modern. And you, which Porto version do you prefer?

Danton

The cosy part of the apartment ...

Living room in warm colours, with functional furniture is the best asylum. The Danton collection offers everything you are looking for to make this place gain its own style and atmosphere.

Danton

High gloss furniture is a great way for optical magnification of the interior. Just like mirrors - they gently reflect light and image, making the room seem more spacious.

youth room

Children grow up fast. They discover the world and shape their own independence every day. We would like to give them the best of everything, so let's start by creating a safe space in which they will freely develop their passions, listen to fairy tales, play and fall asleep after a day full of impressions. Sit back and explore our ways to arrange the room for our toddler or a teenager.

Possi

Common room for siblings is even more fun, companionship and entertainment. Each child, however, should have their own space in such interior. It is the best way to combine the two worlds.

Possi

Create three key areas in the kids' room: for learning, playing and restful sleep. Comfortable desk and bed are necessary. A soft carpet is enough for playground.

all
components
of the system

page
248

Possi

Possi

Despite appearances, this is not an ordinary room. This is a zone where parents have limited access. Let your children express their style, choose their favourite colours, accessories and textiles. In the end, this is where they will discover the world.

Design a shared ideal furniture for the baby's room, using our configurator. This is not only great fun, but also a decision-making lesson.

Indiana

Although children grow up in the blink of an eye, yet they do not have to grow out of the furniture so quickly. Select universal Indiana furniture with original metal handles and lash out on extras.

Indiana

Pastel land

The colours from a palette of fashionable pastels combine perfectly with white. This combination is the perfect way for the creation of the interior for a little girl.

Indiana

Indiana

Children grow very fast. The Indiana collection design is so functional and aesthetic, that you will not have to replace it with „more” youth furniture in a few years.

Soft fabrics are the heroes of the background. Carpets, curtains, textiles and soft pillows bring softness, comfort, emotions and unique, inimitable style.

Ringo

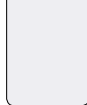

Furniture does not have to be coloured to create a fairytale room for a child. Ringo is a best evidence. Modern white elements are brightened with colourful accessories and striped wallpaper, which is the most conspicuous.

Ringo

The interior becomes beautiful when it has its own character. Ringo collection is a great chance to use your imagination. This beautiful white furniture can be combined with the entire palette of colours, forms and shapes up to the point where you will love your idea for a perfect interior.

Furniture with high-gloss finish is not only beautiful, but also extremely comfortable. Cabinets and drawers are equipped with the accessories with a soft closing system in the fronts, therefore they close almost without a sound.

Senegal

Every night your bed takes you to another world. This beautiful journey should take place in style. The Senegal collection includes a maximally comfortable bed for two with a high headboard for your convenient rest.

Mezo

White colour of the furniture, simplicity of forms and functional solutions - all this makes it easy to change your bedroom into a place hard to leave.

Colourful textiles will help you brighten up the sterile character of white. Just a few trinkets or a coloured bedspread will do to completely change the character of the interior.

Set of 3 shelves
as an option

**CONTAINER
WITH DRAWERS**
set of 3 drawers
as an option

Interior fittings

If you want to use the space in your wardrobe optimally, you can decide on functional optional extras: baskets, shelves and container with drawers.

A tall wardrobe with light wood-grain panels and two horizontal green decorative strips. It features four doors, two on the top half and two on the bottom half, separated by a vertical line.

A desk area with a light wood-grain frame. It includes a computer monitor, a black office chair, and a desk lamp. The desk is integrated into a larger shelving unit.

A tall bookshelf with light wood-grain panels and green accents. It features several shelves holding books, a CD player, and three binders labeled "color". The bottom section has a cabinet with a light wood-grain panel and a green decorative strip.

A floor lamp with a silver metal frame and a large, white, dome-shaped shade.

A green, plush ottoman with two books resting on it. One book has a colorful cover with the word "color" visible.

Information provided in the catalogue does not constitute an offer within the meaning of the Civil Code. All data contained in the catalogue are valid as of the month of providing the catalogue for printing (12/2016). All dimensions of furniture may be slightly changed in which case the updated dimensions of the furniture will be provided on the brw.com.pl website. All dimensions are external dimensions (include finishing and tops). Due to the limitations of the printing technology the colours reproduced in the catalogue may differ from the actual colours of the offered furniture and home arrangement products. Decoration used on pictures are not included in the price of the furniture. Most of the furniture presented in the catalogue is sold in packages for self-assembly. Only correct that is consistent with the manual assembly of the furniture guarantees satisfaction with its use. Information on the availability is valid as of the date of providing the catalogue for printing; in order to determine the exact order fulfilment time please contact your dealer.

Please note: If you are not interested in this catalogue any longer please do not throw it away. Instead give it to someone else who is interested. By doing so you contribute to the protection of the environment.
